9:00am: Meeting began with Antonia Sawyer thanking all in attendance and then requesting an introduction from each in attendance. Once introductions were complete, State Technical Assistance Coordinator, Jayme Whitaker began the meeting. Jayme stated he had heard great things about the Miami County Systems Of Care Governance Coalition all over the state and that Antonia Sawyer had done an amazing job of leading the coalition, with the support of Four County Counseling Center and her supervisor, Letecia Timmel.

Jayme then asked the group: "If I were to say to you, this group was going to tackle all the challenges for all kids and their families how would you feel?"

Coalition answered: Overwhelmed-too broad-We already have systems designed for all kids/all adults-when do we shrink the system?-

Jayme then led the conversation on:

Response- response to crisis can be traced back to breakdown in vision.

Mental wellness: Values in a community that drive work that you are doing. Kathleen Brehmer answered: YMCA values are: caring-respect-honesty-responsibility.

ACES- focuses on trauma, ACE Interface, the Missouri Model, Adaptive leadership

Identify questions you need to ask rather than answers you need to find

Dialog: Create a safe place to discuss constructive, conflictive issues which will lead to higher fidelity, efficiency, and effectiveness.

Watch: Ted Talk- Agree to disagree

Coalition identified a major area of concern within the community:

Access to treatment: systemic issues for confidentiality, crisis response, early identification

Community Profile:

Families are falling through the cracks in the white space between the systems.

Coalition identified major challenges in Miami County:

Substance abuse-Transportation-Generational Poverty-Family support and development (values)-Complex trauma- Transiency/homelessness. Coalition identified a focus: Parenting, workforce development, and education. Coalition needs to create a space for these issues and strategize how to work toward a solution.

Jayne discussed Ted Talk on Yohan Harry about “Rat Park”.

Addiction is not about addiction, it is about attachment and focusing on the adaptive challenges about attachment.

Coalition outlined two topics with strategies before the meeting ended.

Topic #1: Substance Abuse

Goal: Every person affected by substance use will have supportive relationships, appropriate knowledge, and access to treatment.

Population of focus: All individuals within the community

Strategy #1: Develop a substance abuse education plan for all stages of life (from prenatal to elderly).

Measured outcome: 1) Increased enrollment in other educational plans provided by community, that have a similar focus. 2) Completed educational plan ready for implementation.

Strategy #2: Identify services, support, and prevention education in community.

Measured outcome: 1) A complete resource guide (compilation of United Way, 2-1-1, and Chamber guide) for community to access. 2) Identify Miami County Wellness Committee goals 3) identify other goals set by organizations to work toward collaboration on such goals.

Strategy #3: Facilitate “Peer to Peer” support.

Measured Outcome:

Topic #2: Mental Health

Goal: Destigmatized and whole health treatment for those accessing treatment

Population of focus: All individuals within the community

Strategy #1: Education on mental health added to substance abuse education plan.

Measured outcome: Increased awareness of mental health protective and risk factors.

Strategy #2: Community access plan

Measured outcome: All components of the access plan will be developed and implemented. Those components are: website, education, text to chat, and 24 hour physical site for mental health needs (12 hours at hospital-12 hours at Four County Counseling Center?)

Strategy #3: Destroy mental health stigma within the community

Measured outcome:

12:15pm: Meeting adjourned
