# PERU AIRPORT MANAGERS REPORT FOR February 2022

For the month of February, the Peru Airport sold 155.416 gallons of 100LL leaving 4,087 usable. We sold 196.320 gallons of Jet A leaving 3,990 usable.

We got 4 snow plowings in February and everything went well except we lost the snow plow on the Chevy truck and I hope to have the repairs done by this weekend. Really happy we got the F-250 from the City as it was a big help when the snow plow on the Chevy truck failed.

The Sayweather station wind speed sensor failed. We do have a new wind speed sensor so I'm waiting on the weather to replace it.

Joel Ebert is wondering if he could take out the old side walk that goes out to the South T- Hangers as he does have a heavy equipment to take it out.

I noticed the white paint on the North T-Hangers roof is fading really bad.

Me and Kaye will be out of town from April 3<sup>rd</sup> through April 9<sup>th</sup>. Chris Solida is helping out.
