HELP WANTED

Last month we ran an article about the Code Enforcement Crew for the City Building Department. These are the hard workers who take care of the unkempt lawns throughout the city, clean up stray trash and debris, and generally make lacking properties look good again!

Each year two temporary workers are contracted from March through October to do code enforcement work for the city, including mowing unkempt yards, trash and debris pickup, and bulky item pickup in direct violation of city code.

In addition to the physical aspect of the job, these workers

work with the Code enforcement crew on finding other issues that need to be addressed, documenting work, and essentially helping streamline the clean-up process.

While one worker has already signed on, the search is still underway to fill the last remaining position, and we need your help! Building Commissioner Jerry Santen would like to have the position filled ASAP, and ads have been placed online and in the local

newspaper. If you know of anyone interested, please have them contact the City Building Department at 765-473-4881 or check out the City of Peru facebook job post!

The City Hall staff would love to give a big shout-out to Tom Gustin for answering our wanted ad from last month for a table and chairs for City Hall. A beautiful, perfectly sized table has a new home in City Hall and we could not be more grateful! Thanks Tom!
